Dear Lou,

I thank you for your letter & invitation. Keep up the good health -- some good medication on refills around the corner. I have not been diagnosed anything. T-Cells = 680. I love how people gossip but they don't phone-in their "love and concern" to me.

OK well, fuck them...

Keep up your spirit.

I'm out of town 9/19 so I can't make the "do."

Have a good time.

I take again for your concern

Love

Paul
