Mr. Lou Sullivan
FIM Newsletter
[redacted] Haight Street/# [redacted]
San Francisco, California 94117

Dear Lou:

Congratulations!!!!!! for developing such an excellent and elegant and newsy and informative newsletter. Joe Ellman brought the Newsletter to our November Female-to-Male Group meeting. It was well received by all and I expect everyone will be writing you for a regular subscription.

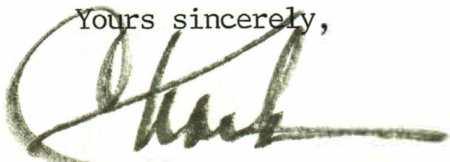

The purpose of this letter is primarily to let you know that the Institute would be blessed to have your Newsletter available to its members. So, do please place us on your mailing list. I am aware it is currently free of charge, and I am not certain how that is possible, but please do accept the enclosed donation as a small token to defray some of your costs. If you charge for subscriptions in the future, please let me know.

I have included some of the materials describing the Institute and the Milwaukee Transgender Program. I have shared our existence with you once before this and you wrote me a lovely letter in return. Hope we have the opportunity to meet sometime in the future.

I cannot speak for Joe, but the answer to your question to him in an earlier communication - for me - is "yes, it is love".

Do take care of yourself. Again, thanks for a great Newsletter!

Yours sincerely,

Charles A. Kiley, MSW
Psychotherapist and Director

"It is our right as human beings to experience emotional and sexual health."
