

Dear Lou 1-22-87

It is lower than normal cold now after a month and a half of way above average. Windy too Temp dropping to below and chill factor way... down to -50 or so. Insanely cold. I HATE it! Ernest was on TV when King Celebration was broadcast. Mike & I made the front page of Mondays Sentinel in a 5 column color photo of us carrying our BUWT banner in the march to PAE. Ours was the only banner that said anything. "Black & White Men Together Milwaukee" says a lot.
