Lou Sullivan

██████████ Haight St. #██████████
San Francisco, CA 94117

Dear Lou:

Thanks for sending FTM to me. I don't see anywhere in the newsletter the cost of subscribing. I want to recommend it to my patients, but I don't want you putting out the money to send it to them. I'm enclosing a \$20 donation to your costs.

The picture of Paul was so sad. I hope it was just the print and he doesn't really look like that. I was surprised to see that the Benjamin Standards are being revised as the membership has not been asked for any input on it. This was interesting to me.

Sometime in the future, when I sell my house, I am planning to move to Los Angeles. I can't predict when it will be as the house market here is slow and unpredictable. I was traumatized by two hurricanes and a tropical storm, then all my pipes froze and burst in December. I just feel that it is time for me to leave the Gulf Coast (also all of my family lives in Los Angeles).

Best wishes to you Lou. I know you are HIV Positive, but do you have full blown AIDS? Are you very ill? I feel so sad just hearing about you, but to live there in San Francisco and to have to face my friends being so ill is more than I could bear.

Congratulations on the big bash given in your honor! I hope you had a wonderful time.

Warmest regards,

Alice
