I am a female-to-male TS interested in receiving information about your phalloplasty surgery. I understand, via your presentation at the Harry Benjamin Assoc. Symposium, that your methods are by far the best cosmetically. I also understand you are no longer ^{able} ~~allowed~~ to perform your surgery in Oklahoma.

I am 30 years old, have been on male hormones since Nov '79 & had my chest surgery exactly a year ago. I am most eager to complete my body and, therefore, get on with my life.

Is it true that you have completely ~~halted~~ stopped performing phalloplasties? If not, how ~~would I go about~~ ^{might I} obtaining your services? ~~I~~ ~~also need to know if one~~ ^{is one} able to urinate through the phallus standing? ~~if one is able to~~ become rigid enough for sexual penetration? ~~if one~~ experiences orgasm? ~~if there~~ ^{is there} extensive body scarring?

Of course, I also need to know costs involved.

Thy for yr reply in advance, & for your assistance to those in my situation.

P. S. You ~~it~~ ^{should consider} ~~be wise to get out of OK and~~
relocating to Calif. There are many many
of us here begging for ^a decent F → M
surgical procedure. We need you!
