Lou Sullivan
[redacted] Hyde Street # [redacted]
[redacted] Francisco, CA 4109

Dear Lou:

Thank you for your letter. We are glad that you have written to us recently. The information which you have made available will be put in our files for future use.

In your letter you told us a little bit about your background. You mention that you were a gay person. Will you please define yourself a little more. WE ARE is trying to understand where you are coming from.

As for the organization of WE ARE, at present we advocate the Stanford/Palo Alto Gender Clinic. However, if a person has problems dealing with the Stanford/Palo Alto Gender Clinic we refer that person to other organizations who can be of help to him/her.

Besides publishing our newsletter, WE ARE is in the process of setting up programs so we can reach anyone who does need information or help. We are trying to set up a general information service for all people with Gender Identity problems.

Mark, the Vice President of WE ARE, and Bill, the President of WE ARE, are both female to male transsexuals. Terri N., on the Advisory Board of WE ARE, is a male to female transsexual. We would be very happy to meet you at some time at our mutual convenience.

Thank you again for contacting us.

Very sincerely,

Bill (Ros)

Bill
President of WE ARE
