

(5/1/89)

Morkel, 1-5-89

Hello dear Lou,

Perhaps you can understand I was very suprised to see the address of our group in F2M. I'm very glad to see that there is such a good magazine in the States. I'm also very sorry I can't coming to the States for the congress about transsexualism.

Past year id was here in Holland and I have met a lot of people. It is very important to us that there are many doctors who are interested in our problems. Here in Holland is a hormonal doctor, Louis Gooren, who became a professor in transsexualism. This has been a great event to us!

Last week I have got a letter from a boy ~~at~~ from the States. He was interested about possibilities in Norway or so. It's a good deal when we can change informations to each other.

Perhaps you would like to write me back a little about life in the States?

With kindly regards

Jean van Oarle
