# AN EVENING IN COPENHAGEN

A Broad Range Recording

UTC 1

WITH

RAE BOURBON

Don't ask us how "Copenhagen" got into the picture. We could have simply called this, "An Evening With Rae Bourbon", but for the sake of Continental atmosphere we've added Danish Cheesecake. Whether it's sittin' in on a 'Frisco Raid, or guest attending a rather remarkable wedding in Chicago, these all-time favorites in the Bourbon retinue will add gales of laughter to any social gathering (adults only). A few of the selections on this record are collector's items, reproduced from original Bourbon appearances of more than a decade ago. While all other material has been recorded by UTC Records in its New York studios, these few routines give the rhyme and reasons for this unique series of lp discs
