San Francisco, California, 94110

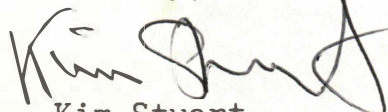

Dear Lew,

This afternoon I finished transcribing your interview and I must say I found it to be one of the most helpful interviews I have had. You helped me a great deal in understanding female to male transexualism; and you also helped me to understand how homosexuality can exist along side transexualism--be it female to male or male to female--quite independent of transexualism. It seems quite obvious to me now that these two conditions can exist in persons singularly or together and that when they do happen to exist together in one person, they seem to be quite independent of each other. I certainly can see no causal relationship and very much doubt that there is one.

I read with great interest the booklet you wrote for Janis on female to male transexualism and found it helpful, informative and well written. It is by far the most realistic pamphlet I have seen published by Janis. I hope you continue that very important work.

I certainly want to wish you all the luck in the world in constructing a rewarding and happy life for yourself and I would encourage you to continue with your writing.

Cordially,

  
Kim Stuart
